- ✔ *"I am healthy and fit 47 y/o without any physical complaints. I eat a balanced whole foods diet. 4 weeks ago I replaced my vitamin regimen with Nutreince. (Saw you on Fox and read the book) I had a little trouble with flavor at first. **But within a few days I noticed a significant increase in energy and it has lasted. I felt fine, but now I feel great! Amazing what happens when you absorb your vitamins!"***  
-Lisa

Catarina C., Portugal
- ✔ *"**My brother has physical and mental disabilities (he's 31 yrs. old) -- and he noticed a benefit from the Nutreince already.** He works at a place for disabled adults doing various tasks (cleaning remote controls, stuffing envelopes, etc.) and he finished a job in the allotted time for the very *\*first\** time -- he has been working there for years and never had been able to complete all the items before. The only difference was that he had been taking Nutreince. So he was pretty excited about that!"*  
-Lisa P., owner Pomeroy Natural Health Solutions, Minnesota
- ✔ *"I'd been taking numerous supplements for years but wasn't feeling healthy. **I really can feel a difference in my overall health since I've started to use Nutreince.** I recently visited my son who is serving in the Air Force, and shared mine with him. - ✔ *"**For the first time in 30 years, I went a month with NO PMS!** I always have a 24--36 hour period of anger/anxiety/weepiness EVERY MONTH. I am usually a real bear to be around! This month that just didn't happen. I got exactly one pimple, and never felt restless, drained, or anxious. I felt healthy and happy like I do the rest of the month. I wanted to take the supplement to keep my bones and heart healthy, but this is a wonderful side effect that I can only attribute to the Nutreince."*  
-Vicki K.
- ✔ *"I love the quality and ease of taking a complete multi via nutreince. **I know I feel better when I take it, and that's what life is all about!**"*  
-BJ Grondin, Personal Trainer, Maine

-Rene P., Texas

- ✔ *"I cannot be without my Nutreince! It is sooo easy and tasty to take, I've ditched all those pills that I was not sure were doing much of anything. Having come through two surgeries that have compromised my gut/digestion, and **having set aside my reading glasses within a month of starting these vitamins** (and my distance vision is also somewhat improved), I just know that the nutrient absorption is stellar! I don't make recommendations easily, however, it's easy to recommend Nutreince."*

-Resolute M. Pacific, Washington
- ✔ *"Send ASAP as I am running low! **I love what this formula has done for me...**improved eyesight, more energy, and an amazing overall feeling of wellbeing...ahh. Thank you so much."*

-Donna Marie D. Elkton, Maryland
- ✔ *"I ordered the sample package after being very intrigued when I watched the Caltons interview... Not only do I absolutely love their personalities but it seemed like they put so much thought and effort into their product. **I was blown away by the amazing flavors and I ordered 6 boxes the next day. Taking my multi vitamin feels like a treat** and it's my second favorite part of the day."*

-Alyssa F., Idaho
- ✔ *"Since going paleo about 2 years ago I have struggled with this. I thought I should get my nutrition through food, as that is what is most optimal for your body. Bone broths, green veggies, etc. I even held my nose and took liver pills, since I just cannot stand the taste of liver. It helped, as any foray into real foods does, but frankly I was pretty broken. I ate bad most of my life and it paid a toll on my health and life.*

*I recently read Rich Food, Poor Food and started wondering about their multivitamin Nutreince. I talked a friend into doing a 3--month trial with me. Going together meant we got a good deal on it and also gave us enough to give it a good college try. I'm a firm believer that you have to give things a chance so you can see what it's doing. Well, it only took me a couple of weeks to notice a difference. **I noticed a difference in my energy levels after about a week of being on it.** All of a sudden, I was no longer slouched on the couch after working a full day. I was still alive enough to get my chores done. That in itself was great, but the results didn't stop there. The shoulder injury that had been slow to heal, started healing faster. I struggled with it for about 2.5 months with it slowly healing... 2 months later it's pretty much completely healed. Coincidence? Maybe. Another thing I struggled with for ages even since going lower carb paleo is blood sugar levels. Years of high carb living and some genetic predispositions left me metabolically broken and year after year my fasting blood sugar levels stayed above 100 (6.1 CDN) It never flinched. I was not going up as much after meals, but it still wasn't coming down. The other day I tested in the AM and low and behold my # was 88 (Just under 5.0 CDN) Oh my, is this another coincidence? I honestly don't think so.*

***Needless to say, I'm hooked.** I can't wait to see what other aspect of my health is reversed with the consumption of this powerful source of micronutrients.*

*Thank you Mira and Jayson Calton. I am in your debt*

✔ “After reading *Naked Calories* I was convinced that stopping my daily vitamin pill and starting on Nutreince would give me a health “insurance policy” against future diseases. I didn’t expect any short-term effects. **I am so pleasantly surprised at the (unexpected for me) appetite suppressing effect of Nutreince... cravings for junk food or bigger portions have been greatly reduced.** I am down 2 pounds in a month with no effort towards losing weight. I love it!”  
-Susan G. Rochester NY

✔ “**I have only used it for a week and a half, but I feel as though my energy level is much better.**”  
-Rene P., Texas

✔ “**Nutreince has done three things for me. One. It simplified my pantry.** I no longer have a myriad of bottles from a dozen manufacturers cluttering my cabinet because I get everything I need in two convenient pre--portioned water--soluble doses. I no longer have to worry about something I never knew was an issue. Nutrient competition and bioavailability aren’t even on my radar, because Nutreince already has dialed it in for me.

**Two. I don’t have to worry about loss of nutritional availability** and unnecessary oxidization. I don’t have pills collecting pocket lint or waiting in a plastic container to be consumed. I have two delicious vitamin shakes I consume when I wake up and just after lunch. Nutreince is conveniently sealed in two foil packets clearly labeled for AM and PM use. I only use what I need, when I need it. Which is twice a day, everyday.

**Three.** The true test of any product is how it changed your life in respect to before you were introduced to it. **Since using Nutreince, I feel centered, I feel balanced and I feel uncharacteristically whole. Taking the vitamins makes it seem like somebody wiped the lens clean and the world just sprung into focus.** I’ll need to restock soon.”

-Tommy G, New York City

- ✔ ***“My 93--yr old mother and I are experiencing positive results with nutreince... Mainly sleeping better and colorful dreams. Taste doesn't bother us. We are 3--weeks into taking nutreince and my mother has not experienced insomnia since day two. Doctors have been recommending sleep aids to her and I have been jumping up and down saying don't do it. Balance issues with elderly using sleep aids can lead to serious falls in the middle of the night!***

*Update on my mother's AMD: She had an appointment with eye specialist last Friday. **She was diagnosed with the dry form of AMD and the recommended treatment given was vitamins with lutein. Of course, my mother has been taken nutreince for over a month. The really good news: Pressure in both eyes was down to 13 from over 20!!! She has never had a pressure number below 20 for over 15 years!***

*- Mary Alice L. Vallejo, California*

-Susan Rockford, MI

- ✔ ***“My triglycerides dropped from 83 to 46, where it had been for years. I feel better than I did before starting Nutreince...I am 48 yrs. old, and have had osteoarthritis since I was 30. Since taking Nutreince, my Endo has cut way back on supplements for all of these due to how well my counts improved. My husband is also taking the Nutreince and is pleased with it.”***  
-Kim

- ✔ ***“I told myself I would give your vitamins 2 months. I can't believe it. **After about one month my energy levels have soared.** I feel more focused and am able to get through my day without feeling absolutely wiped out... I have been looking for the "holy grail" of what could improve my energy. I have come to the conclusion that vitamin pills don't work. I also find myself with less muscle aches, especially after a workout.. **Your formula has truly turned my health around.** Thank you!!!!!!!!!!”***

- ✔ *"I was really surprised to find my strength increasing, especially after taking Nutreince for about 10 days! I've taken multivitamins on and off over the years, and most of the time I can't say I had seen or felt any difference. This is truly helpful, as my husband has a bad back and was told not to lift anything heavier than 5 pounds. Now that I have more strength flowing into my system, I lift any and all packages with ease."*  
-Dorothy R. Sarasota FL
  
- ✔ *"As a senior who had tried a great number of different nutritional products over the years, I was skeptical at first but am a true believer now. My energy level has increased dramatically, I feel great, and the way nutreince is taken has helped me increase my purified water consumption (from 60 to 100 ounces a day). The extra hydration has also been instrumental in faster success on my weight reduction program and the Caltons' fair pricing is appreciated. I recommend nutreince to anyone who desires to enhance their health without overdosing on excessive supplementation."*  
-Robin P., Chamblee, Georgia
